

Shoe Sizing Chart

To determine your child's shoe size, please follow these simple steps:

- * Print this page. When printing, make sure no adjustments are made through expand/ shrink page size options.
- * Use a ruler to confirm scale printed line.
- * Have your child stand up with a heel just touching the dashed line.
- * If the longest toe falls between two sizes, select the larger size.
- * Measure the other foot as well. If one foot is larger than the other, choose the larger size.

We hope you find this chart helpful.
